

*June 26-29, 2023
University of Idaho Campus
Moscow, Idaho*

“The Idaho 4-H State Teen Association Convention is an opportunity for youth to experience college life, explore career opportunities and prepare for a lifetime of success with other Idaho teens.”

University of Idaho
Extension

About the Idaho 4-H State Teen Association Convention

A 4-day educational event focusing on post-secondary and career exploration. Both 4-H and non-4-H youth are provided the opportunity to participate in a wide variety of activities including educational workshops; community and campus tours; service-learning projects; state elections; on-campus living; and networking with peers from around the state.

Who Can Attend

- Youth who have completed the 8th – 12th grades
- Certified Adult chaperones and Certified Collegiate Volunteers
- Both 4-H and Non-4-H Members

Activities

Delegates will take part in scheduled educational, recreational, and social events, with the opportunity during workshops and these events to explore the university campus and make new friends. They will live in a university dormitory, eat in the student dining hall, participate in workshop tracks and campus/community tours, recreation activities, dances, service project and assemblies.

Registration

Registration includes: Lodging, meals, transportation, workshop and presenter fees, entertainment activities, etc.

Registration Type	Dates	Price
Idaho 4-H Early Bird Registration	April 10-May 15	\$295.00
Non-4-H Early Bird Registration	April 10-May 15	\$345.00
Idaho 4-H Regular Registration	May 15-June 6	\$325.00
Non-4-H Regular Registration	May 15- June 6	\$375.00
STAC Steering Committee	April 12-June 6	\$185.00
Chaperone Registration Fee	April 12- June 6	\$185.00
Idaho 4-H State Officer	April 12- June 6	\$185.00

NO registrations will be accepted after **June 6, 2023**. All payments must be received by June 6th.

For Idaho 4-H members: registration is available through ZSuite, please log into your family account and click “events” or click [here](#)

- Instructions can be found on the Idaho 4-H State Teen Association Convention webpage or by [clicking here](#).

For Non-Idaho 4-H members: Register in [ZSuite](#) as a non-member.

- When registering, mark your choices for Workshops and Tours. Workshop and Tour enrollments will be first come, first served. Some workshops will fill quickly, so there is an advantage to registering early. If the workshop you selected is full, you’ll be assigned to a different workshop.

- All conference digital photos and conference t-shirts are included in the registration fees.
- Onsite check-in will take place in LLC complex lobby on June 26, between 2 pm – 3:30 pm.

Chaperones

- If you are interested in becoming a Chaperone for this event, please review the Chaperone Position Description on the STAC Website:
<https://www.uidaho.edu/extension/4h/events/stac>
- To apply for a Chaperone position, please complete the online application found on the STAC Website by **May 2nd**. Notifications will be made to all Chaperones on or before **May 13th**. Information regarding how to register and pay will be sent at that time. State and local scholarships are available, please inquire at your local County Extension office.
- Chaperone Application:
<https://forms.office.com/Pages/DesignPageV2.aspx?subpage=design&FormId=Y2u8fpJXGUqyCwS4JgSIU21wPL9B4ppOvWaq7IsOgdtUQURNVFWTzdWSEhOUzRPOFFGTEE1MFJONi4u>

Collegiate Volunteers

- If you are interested in becoming a Certified Collegiate Volunteer for this event, please review the Position Description on the STAC Website.
- To apply for a Collegiate Volunteer position, please complete the online Application on the STAC Website. Notifications will be made to all Collegiate Volunteers on or before **May 6TH**. Information regarding how to get certified and register will be sent at that time.
- College Staff Application: [Apply Now](#)

Payments

- All payments are to be made online (Visa/Mastercard and Webchecks) at www.uidaho.edu/4hevents by clicking on the “STAC Online Payments Only” icon. Early Bird payments are due **by May 20** and Regular Registration payments are due **by June 6**. **Please do not make payments to the county offices. This event is set up to receive online payments only.**

Scholarships

- Friends of 4-H Endowment Scholarship — A total of 52 \$100 scholarships are available (13 per UI Extension District). Applications due in ZSuite by April 4th.
- Tractor Supply Company and 4-H Paper Clover — A total of eight full registration scholarships (2 per UI Extension District) are available. Applications due in ZSuite by April 4th.
- Doris Roper (Youth) John Thiessen (Adult) (PDF) — Two endowment scholarships are available for youth and adults to apply for state and national opportunities. Scholarship amounts vary. Applications are due in ZSuite by the early bird registration deadline or two weeks prior to close of regular registration, whichever comes first

Transportation

- For all State and National 4-H Events, the University of Idaho 4-H Youth Development department will arrange public transportation – trains, buses, and/or commercial airlines – to and from events. Because commercial chartered companies are held to higher safety standards with periodic inspections and approved health and safety policies, 4-H requires all youth and chaperones participating in 4-H State and National events to use the transportation arranged for each event. For information, please review the [4-H Transportation Policy](#).
- Fees for bussing is included in the registration cost. Fees cover the expenses associated with all Transportation provided, including, but not limited to: gas; mileage; lodging and accommodations for all bus drivers; insurances; and use of buses for events held off campus during the event.
- Those living in the Moscow area (Incl. Troy, Deary, Bovill) where a bus is not routed through, may travel to the event following the provisions outlined under the “4-H Traveling in Non-Public Automobiles” section of the [4-H Transportation Policy](#).

Lodging

Delegates will stay at the University of Idaho Living Learning Communities (LLC residence hall). Delegates need to bring bedding (pillow, sleeping bag and/or sheets, blankets), towels, and personal toiletry items. Rooms and roommates will be pre-assigned. Counties are grouped together by districts on floors. *Changes are not allowed.* There is a \$75 charge for lost room keys and \$10 fee for lost key tags.

Food

Meal service is provided in the EATERY cafeteria. Delegates will be issued a meal card which must be presented at each meal. There is a \$20 charge for replacing lost cards.

Dress Code

Dress for this event ranges from casual to semi-formal.

- **Casual for daily activities** includes jeans, capris, sweatshirts, or t-shirts. **Baggy sweats, short shorts (inseams less than 4”)/skirts, and lowcut shirts or tank tops ARE NOT permitted** under daily casual wear and youth will be asked to change into something more appropriate. **No crop-tops (midribs must be covered)**
- **Business Casual for officer interviews and speeches** (if applicable) - Dresses, skirts (knee length or longer when seated), slacks with nice blouses/shirts or sweaters, nice dress jeans (black Wranglers) are allowed but no blue denim. Closed toe shoes, hard-soled.
- **Semi-Formal for Clover Banquet** - Dresses, dressy blouses, and skirts (knee-length or longer when seated), or dress pants, shirts, and ties. Semi-formal means no denim, bared midribs and shirttails are tucked in. No flip flops or sport shoes.
- **Sleepwear** is to be worn only in individual rooms, not in public areas (halls, meeting rooms, lobby). Be sure to bring jackets and rain gear as well!

Workshop Tracks

Tracks are assigned according to choices indicated on your registration form and available space. Delegates are expected to participate and attend all selected tracks.

Decorations

Bring supplies to decorate your dormitory room doors to show your 4-H pride and help people get to know you. Please do not bring staples, tacks, nails, or any tape that leaves residue for hanging decorations.

4-H Service Project

This year's 4-H Service Projects:

- 1) **Shattuck Arboretum** - When Charles Shattuck came to the University of Idaho in 1909 to start a forestry curriculum, the campus was essentially treeless. In 1910, he initiated planting a 14-acre slope with hundreds of introduced trees and shrubs for education and beautification of the campus. Today the Arboretum provides a unique site for observing resident and migratory birds throughout the year.

Come apply your hands to larger service by cleaning and restoring trails and battling the ivy that has overtaken parts of the arboretum.

- 2) **Pollinator Habitat Service Project** - Pollinators are key to our food supply. One in every three bites of food we eat comes through the work of pollinators. There are many challenges that impact pollinator population, and lack of habitat is one of the biggest factors. Learn how easy it is to provide habitat for pollinators through a simple planting project. 4-H teens can have a positive impact on the population of pollinators.

- 3) **University of Idaho Children's Center** - The University of Idaho Children's Center (UICC) offers a child-centered program in Moscow, Idaho. The best learning environment is one that honors each child. The feelings, thoughts, customs, and lifestyles of each child and family are validated by those that care for him or her. Come serve the UI Children's Center by cleaning the outdoor spaces, helping children plant in the garden, cleaning and caring for the toys, and presenting to the children at the center about 4-H programming!*

*Note that [a form with parent permission](#) must be filled out ahead of time to volunteer at the UI Children's Center.

- 4) **Cookies 4 Kids** - Apply your hands to larger service as you bake cookies for children at the UI Children's Center (UICC). If you are a skilled baker or this is your first time, teen teachers will lead you through the process of following a

recipe, measuring dry and wet ingredients and more. At the conclusion of the call, participants will deliver their fresh baked cookies to children at the UICC.

Assembly Helpers

If you are interested in being an assembly helper, please indicate your desire on the registration form. Assembly helper positions include:

- 1) **US Pledge Leader** – you will lead the group in the Pledge of Allegiance at one of the assemblies. This will include something like, “Will everyone rise and join me in reciting the Pledge of Allegiance....I pledge allegiance.”
- 2) **4-H Pledge Leader** – you will lead the group in the 4-H Pledge at one of the assemblies. This will include something like, “Please join me in the reciting of the 4-H Pledge....I pledge my head...”
- 3) **Sharing** – you can share either a thought for the day, poem, etc. to direct the delegates’ thoughts towards learning/gaining something from the experiences of the day. The conference theme is “Pathway to Possibilities.” You may share something that relates to the theme or something else that is meaningful to you.

4-H State Officers and State Teen Association Convention Steering Committee

If you would like to run for a 4-H State Office or are interested in being part of the State Teen Association Convention Steering Committee indicate your interest on the registration form.

4-H State Association Positions available: President, Vice President, Secretary, Media Manager, and Activities Director (one-year term), contact Gail Silkwood at gsilkwood@uidaho.edu

Steering Committee District Representative Positions available (4): Northern, Southern, Central and Eastern (one-year term).

Steering Committee Youth Positions possibly (4) available depending on the term of the current youth: Northern, Southern, Central and Eastern (up to two-year term).

11:30 AM	Lunch	Eatery
12:30 PM	Busses Depart	Tower Lawn/LLC Plaza

CONFERENCE POLICIES

University of Idaho 4-H Youth Development faculty and staff, 4-H State Officers and the Conference Steering Committee plan and conduct the conference in accordance with the University of Idaho Youth Conference policies. Delegates are expected to adhere to these policies. 4-H Members sign an electronic code of conduct upon enrollment for the 4-H program.

Parents/guardians of Non-4-H members will be required to complete and sign a consent form, which provides for adherence to certain policies and health requirements.

2023 University of Idaho Youth Conference Policies

The University of Idaho 4-H Youth Development department wants your week at the State Teen Association Convention to be filled with exciting experiences, new friendships, and fun. To help make this happen, each participant is expected to be considerate of others, participate fully in the Conference programs, and observe the following rules.

Assemblies & Workshops

- Attendance at all scheduled events is required. Be prompt in attendance and courteous to all instructors and speakers.
- Workshops are assigned according to choices given on your registration form and available space.
- Name badges are important for gaining admittance to Idaho 4-H State Teen Association Convention events, for identification and to help you get acquainted. Wear your badge at all times.

Dormitory & Meals

- Room assignments made at dorm registration must be kept. Counties are grouped together by districts on floors. Changes are not allowed (in an emergency, we must know where you are).
- Leave valuables at home. We have no way to guarantee their security. Even locked dorm rooms do not always prevent losses. (There is a \$75 charge for lost room keys and a \$10 fee for lost key tags.)
- Respect for the privacy of others requires that members of the opposite sex are only allowed in common areas on the same floor. No delegate will be allowed in the rooms of the opposite sex.
- Lounges are available on each floor for visiting.
- The dormitory will be locked one-half hour after the close of the evening activity. In your room and quiet time begins, please refer to the schedule for lights out times. After lights out, use phones for emergencies only.

- The removal of window screens or throwing any object out of the dorm windows is strictly forbidden.
- ALL meals are provided during this conference. **Delegates are not permitted to order on/off campus dining to be delivered to the dorms during this event.** If there are mealtime concerns, please contact the event coordinators prior to the conference to make accommodations.
- At no time should any youth be alone on campus, youth should engage in the “buddy system” when traveling to workshops, activities, meals or other STAC approved events. Youth should not enter any UI buildings except for attending STAC workshops, activities, meals or other STAC approved events.
- Leaving campus at any time during this event is prohibited without prior arrangements made by the event coordinators. This includes traveling to restaurants, stores, malls, etc. or leaving the conference prior to the close of the conference for any reason.

General

- Idaho 4-H State Teen Association Convention delegate may ride only in cars driven by Extension staff or chaperones. Only campus or Moscow buildings scheduled for 4-H events are to be entered and then only at times designated on the program.
- Possession of tobacco, vape products, use of alcoholic beverages, illegal drugs, firearms, or explosives of any kind is prohibited on campus and anytime during Idaho 4-H State Teen Association Convention.
- Cost of damage or theft of any university property will be billed to the individual responsible (or delegate’s parents) or to the group with which the delegate is associated.
- Permission to leave Idaho 4-H State Teen Association Convention and/or campus at any time must be secured in advance from the Extension staff or chaperone in charge of the county delegation who will then inform the 4-H Youth Development Office.
- Minor problems will be handled by the Extension staff or chaperone in charge.

Event Nurse/Health Information

- Report illness immediately to an adult chaperone. Medical staff are available to provide immediate First Aid assistance on site. In case of emergency, parents will be notified, and delegates will be taken to Moscow Family Medicine or Gritman Memorial Medical Center, Moscow.
- All medications must be turned into the event nurse upon arrival. This includes prescription and over-the-counter medications. In the event of a medical emergency, we need to know what medications have and have not been taken.
- Emergency rescue medications such as inhalers and EpiPens do not need to be turned in, but the event staff should be aware that you carry these devices in case assistance needs to be given in an emergency.

These policies are intended to assist in providing for the health, safety, and social well-being of everyone attending the Idaho 4-H State Teen Association Convention (STAC). Should a situation

arise that is not covered by this list, the STAC Steering Committee will handle it in a manner consistent with UI Extension policies.

These policies are intended to assist in providing for the health, safety, and social well-being of everyone attending the Idaho 4-H State Teen Association Convention (STAC). 2023 Idaho 4-H State Teen Association Convention Workshops

3D MODELING WITH TINKERCARD (MAKE AT THE MILL)

Being able to design 3D models in today’s job market is a skill that any student earning a virtual degree should know. In this workshop we will use the online 3D modeling program, Tinkercad, to walk students through how to make their own keychain! In the process, students will learn how to navigate the programs workplane, add objects, and all the other necessities to get them started with 3D modeling. Not working toward a virtual degree? No problem! This workshop will also provide a great start to anyone interested in learning the basics on how to build their own 3D models. The library's laptops/chrome books will be used to facilitate this workshop.

4-H TO REAL WORLD SKILLS

How to take your 4-H project experience and apply it to real world job skills and interview responses. This will be a hands-on workshop in which we will use the students' projects to apply to current open positions. students will interview each other to learn how to interview.

ADVERTISING STRATEGIES

What does it take to make the sale in Radio Advertising? In this workshop you will work with local professionals to learn the start to finish process that we use in broadcast advertising from prospective clients, developing recommendations, the creative process, and the pitch to local and regional advertisers.

APPARELS, TEXTILES & DESIGN, SASHIKO STITCHING

Design and make your own custom block print on fabric using fabric inks/ paints and Idaho's most famous commodity- the potato!

BECOME A 4-H TECH CHANGEMAKER

The 4-H Tech Changemakers program can help you build leadership skills, learn to use new technologies and build your resume all while giving back to your community. Access to technology and digital skills is impacting the opportunities people can take advantage of. Tech Changemakers will help you become a digital skills trainer and an advocate for increasing digital access in your community.

CULTURE IS PREVENTION

The Culture is Prevention Workshop will be based on brief history, traditions, language and stories of the Coeur d'Alene Tribe and Nez Perce Tribe. Youth will learn about regional Tribal cultures and complete an art activity. This session will support student learning, diversity, and inclusion.

DIGITAL MEDIA

Learn how do create your own podcast as well as how to edit with digital media.

DISCOVER YOUR CAREER INTERESTS

Take a few steps to explore your interests and how those might connect to career paths. Complete a career assessment and participate in activities to help articulate your values and interests.

DRONES ARE MORE THAN JUST TOYS

Drones are much more than just toys - they are an important tool for agriculture and natural resource management. This workshop will explore the different types of drones and their applications. Participants will learn about and practice how high-quality maps are made from drone-collected photographs and get some hands-on experience flying some drones.

ENGINEERING THE WORLD (HYDRAULICS AND HYDROLOGY)

Well hydrology and groundwater movement will be explored through classroom and hands on experiments.

FIND YOUR FUTURE IN CALS

The College of Agricultural and Life Sciences (CALS) addresses the worlds most critical challenges in order to create and sustain an abundant food and energy supply, a healthy environment, and successful families and communities. We offer over 25 undergraduate degree options in a diverse range of subjects including agribusiness, entomology, sustainable food systems, horticulture & urban agriculture, food and nutrition, animal and veterinary science, and agricultural education. Join us for this workshop to explore everything we have to offer in CALS!

FUN WITH LEDS

In this workshop students will learn a little bit about electricity, Light Emitting Diodes (LED's), and soldering. We will discuss some basic ideas concerning electricity, including how LED's work. The students will build a small LED blinker circuit during the workshop.

HERO'S IN ACTION "ROTC"

Accidents can happen any time, any place, to anyone. Learn steps to reduce the risk and improve the chance of success in an unfortunate event. Basic First Aid, use of resources and controlling the scene will be covered in this interactive, role play session. Visit with emergency professionals about their careers and learn about the Student Resident Firefighter Program in Moscow.

LEADERSHIP NOW!

The Leadership NOW! Advanced Leadership Development workshop will consist of intense face to face leadership development. You will be engrossed in interactive opportunities that will teach them skills that will help them in future leadership positions.

LEAN PROJECT MANAGEMENT

Principles of Project Management Lean project management principles strive to deliver more benefits and eliminate waste in processes. This workshop will use hands-on activities and reflection time to introduce students to lean project management strategies and discuss how these strategies are used in manufacturing and software development by companies such as Toyota and Microsoft. In addition, students will have the opportunity to apply lean principles to processes they are currently using in their schoolwork, jobs, and other areas in their life. This workshop will be relevant to students who are considering careers in business, manufacturing, or engineering fields, and will have practical benefits for attendees.

MENDING FENCES

This workshop will provide fun, hands-on activities on topics such as how to handle stress, how to help those around you that may be struggling, and ways to find support and use self-care. After going through this workshop, participants will have the opportunity to sign-up to take the information back to their county and teach groups of their peers.

NATIVE AMERICAN ART

We will provide the youth with an opportunity to see and explore new and antique Native American art pieces including regalia, paintings, drums, beaded jewelry and more. We will discuss the historical significance of the arts in Native American culture and how connection to one's own identity/culture can be a tool in prevention of negative outside influences. We will discuss some of the myths and misunderstandings of some of the ideas people have about Native Americans in general and how we can help promote diversity and inclusion. We will also provide a hands-on art activity for the youth to complete as a takeaway.

PRECISION AG

Precision ag drone lab tour at IRIC will cover from Stereoscopy to computer vision, from drone photography to thermal imaging for precision agricultural and forest application and following by a live drone flight demo.

THE WORLD OF DAIRY

This session will focus on milk products and milk from dairy animals and will include a milking simulation for a hands-on opportunity and possible a live milking demonstration. Depending on location, will have live animals for students to interact with, feed, etc.

UNSCRABBLE LEADERSHIP

Get your game face on for interactive games, activities and conversations hosted by none other than your Idaho State Teen Association Officer Team!

WHAT'S YOUR SUPERPOWER?

Everyone has a superpower - a unique capability that you bring to any group you're a part of! By identifying and learning more about your own superpower, you can be a more effective team member in any situation.

This fun, hands-on workshop will help you name your own individual superpower, and how to use it most effectively (while avoiding the pitfalls of its shadow side) both now at school or with your extracurricular activities and in your future career!

WONDERS WITH WATER

Using activities from the 4-H Wildlife and Water Habitats Curriculum and Project WET, Extensions Water Educator, Jim Ekins, and his staff will provide a fun, engaging, hands-on investigation into watershed science. We will use water quality monitoring techniques used by field scientists around the world, this program will highlight the sorts of water-related jobs/careers that are available.

Proposed 2-hour timeline

Pre-lesson: Why is water important to you? Using the Project WET Blue Planet activity, discover the percentage of Earth's Surface that is covered by water.

Water cycle activity: Incredible Journey (Project WET): discuss where on Earth water is found, and in what relative quantities.

Pollution visible and invisible, aquatic macroinvertebrates as pollution indicators

Break, and prepare for going outside to do field science

IDAHO20 Water Quality monitoring (Physical and Chemical Assessments) and the Mobile Bug Lab! I will demonstrate the IDAHO20 Master Water Stewards protocols, then the youth get to try their hand at doing the monitoring. We will then try to catch some stream aquatic macroinvertebrates from Paradise Creek. I will also try to catch some bugs from a different stream (e.g., Mica Creek) for comparison. We can check everything out under magnifying glasses and will positively identify various macroinvertebrates based on morphological characteristics.

Career and Community Tours

ANIMAL SCIENCE

Visit the University of Idaho Sheep, Beef and Dairy centers and learn about the research conducted at the University of Idaho.

FISH AND WILDLIFE SCIENCES, AQUACULTURE TOUR

Take a tour of the UI Aquaculture Research Laboratories, on campus facilities include the Cold-Water Research Laboratory and Burbot Research Facility. Research focus areas are population genetics, genomics, proteomics, selective breeding, nutrition and feeding of fish, engineering of aquaculture systems and fish health management.

PARKER FARM & PITKIN NURSERY

Visit the University of Idaho's 172-acre Parker Farm, located just 2 miles from Moscow, The Parker Research Farm works on plant disease management, weed control, crop production, plant breeding, soil ecology and Organic farming. Then, stop in next door at the UI Pitkin Nursery and learn about the process of growing trees for reforestation across the region.

UNIVERSITY OF IDAHO ATHLETICS

WSU RAPTOR CLUB & BEARS
